BE AWARE!

Caller ID is a great tool, however, scammers have learned how to use it to their advantage.

They are now able to make phone calls that make them look like they are coming from a familiar number. If you receive a call from us and are not sure of its legitimacy please know if we call you, we will never ask you for your PIN number or any other personal information such as social security number or account number. If you are still unsure, get the name of the person who called you, and call them back on our main number.

Community Spotlight

We usually like to take this opportunity to let you know what we have been doing in our communities. This month we would like to ask for your help by supporting local businesses that have been impacted during this time. Shopping at a local business has many benefits:

- Family health - produce bought from local farmers is often fresher
- Buying local improves the economy as a whole in your community
- You often know the owners or know of them
- Local owners tend to give more personalized customer service
- Many have services or products that are unique to our community

So next time you go out for dinner or need that special little gift for someone, think about shopping local and giving back to your community.
